

July 14, 2009 - July 14, 2025: In Memory of Paratrooper Alessandro Di Lisio

Published on 14/07/2025

Today, July 14, 2025, we remember with deep respect 1st Corporal Major **Alessandro Di Lisio**, Paratrooper of the **XXII Sappers Company "Angeli Neri"** of the **8th Paratrooper Sappers Regiment "Folgore"**, who fell sixteen years ago during the ISAF mission in Afghanistan.

Born in **Campobasso** on May 15, 1984, Alessandro enlisted in the Italian Army driven by a strong sense of duty and love for his country. After participating in several international missions, on July 14, 2009, he lost his life at just 25 years old, while serving as a machine gunner (or in military jargon "rallista") on a Lince vehicle, about 50 km northeast of Farah, near Ganjabad.

During a patrol, he spotted a disturbed patch of ground and sensed the danger, immediately alerting the convoy. But there was no time to react: the explosion of an IED unleashed a devastating shockwave that left no escape for the young paratrooper, who passed away shortly

after at the military hospital in Farah.

On **July 17, 2009**, Campobasso paid tribute to its valiant son with a **solemn funeral in the city's Cathedral**, gathering around the family and comrades in a silence full of pain and respect.

The Monument and the Memory

On **July 14, 2019**, on the occasion of the tenth anniversary of his death, Campobasso dedicated a garden and a monument to Alessandro Di Lisio.

The work consists of **a part of a Leopard tank track**, the reconstruction of a parachute, and a plaque with the following inscription:

"To the many who have been here.

To those who have given much.

To Alessandro Di Lisio who gave everything."
